Dr. Robert Goldstein Award Recipients

The Dr. Robert Goldstein Award was established in 2018 to honor the late Dr. Robert Goldstein, who played a key role in developing JDRF's Research Department and serving as chief scientific officer for JDRF International and JDRF Canada for over two decades. Dr. Goldstein was a champion of JDRF's training grants program, so this Award recognizes notable early career T1D researchers who show great promise for future work in the field.
